So, save the date and *be there.*”

WHY BOTHER WITH THE BUSINESS SURVEY?

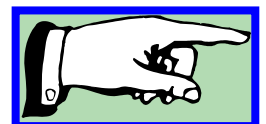

Without an objective measure from *all* businesses having a say in this community, the Chamber only hears from *some* of the people *some* of the time. Once the GOA funding is provided to the Chamber, every licensed business will have invested in the Chamber—but only as *silent* partners, unless Anguilla’s business leaders share your views in the survey this year. To anyone who is thinking, ‘Why bother, nothing will change?’ ...unfortunately, the only sure way for that to be right is *not* to have your say. It is only with strong participation that everyone can put their voice where they *already* put their money, confidently, and confidentially — from the home page of the website: www.AnguillaChamber.com — by mailing the survey from *The Anguillian*, from the July newsletter, or by picking up a form at the Chamber office in The Valley, the Post Office, ANGLEC or Caribbean Cable Communications. *Let us hear your voice today!*

We must chart our own course...or be destined to drift in the wind...

While the Government is working on the commitment to provide “basic operations” – only the *supporting members* of the Chamber are providing current funding – and upon approval of Government support, the Chamber special events, workshops, communications and networking activities would *continue* to depend on the support and sponsorships from *supporting members* of the Chamber. Join these business leaders with an active role in charting the course of our entire economy by investing in ACOCI. To learn more about becoming a *supporting member* of your Chamber, visit:
